

FRACTIONAL CTO PLANS FOR SMALL BUSINESS

Your On-Call Tech Partner For Apps, AI And Custom Software.

Call me when you need an app built, an AI tool set up, a system fixed or a second opinion.

My team builds it, runs it and supports it, for one flat monthly price.

Reach me Mon-Fri, 9-5 ET
by phone, text or email

hours, by plan

Emergencies
set response time on every
plan

From \$995/mo
month-to-month after 3
months

REAL EXAMPLES

Here's Exactly What That Looks Like

YOU
Your store's checkout
breaks.

→ **WE**
**My team finds the problem
and fixes it.**

YOU
You want AI answering
customer questions.

→ **WE**
**We build it, set it up and
keep it running.**

YOU
You have an idea but aren't
sure how to build it.

→ **WE**
**We map out the best way,
then build it.**

YOU
Your systems don't talk to
each other.

→ **WE**
**We connect them so data
flows on its own.**

YOU
You need a quick feature or
a report.

→ **WE**
**It just gets done as part of
your plan.**

YOU
Your staff re-types the same
data daily.

→ **WE**
**We automate it, with AI or
plain code.**

NOT JUST ADVICE

What My Team Builds And Supports

 **Custom software & web apps**
Portals, dashboards and
internal tools.

 **AI assistants**
Chatbots that answer
customers and sort
requests.

 **Business automation**
Code that handles
repetitive work.

 **Connecting your systems**
CRM, accounting,
eCommerce and email.

 **eCommerce add-ons**
Shopify, BigCommerce,
WooCommerce,
Yahoo/Turbify.

 **Mobile apps**
iPhone and Android
apps.

 **Support & maintenance**
Free for the apps my
team builds.

 **Strategy & consulting**
Roadmaps, tool choices
and tech advice.

Small builds, like a 3-hour automation, **just get done in your plan** with no separate quote. Bigger projects are quoted up front.

Hi, I'm George Chityat. I look at technology the way an owner does.

I've spent 20+ years owning and running businesses, including a FedEx Ground contracting business. I built and sold my previous software development firm in 2019 and founded Supreme Coding in 2020 in Boynton Beach, FL. We also build and run our own products: Supreme Docs, eShipRate and MyTruckMate.

I'm your first call. I give the advice and set the plan; my development team builds, tests and supports the work, and I stay involved the whole way.

HOW YOUR PLAN WORKS

Real Work Every Month, Not Just Advice

One plan: advice plus hands-on work

Each plan is sized for a typical month of **hands-on work from me and my team**. Any work counts the same: coding, AI, automation, integrations and strategy. Support for apps my team builds is free on top.

About 6 hrs
a month · Advisor

About 12 hrs
a month · Partner

About 22 hrs
a month · Executive

FOR EXAMPLE

Need an automation that takes 3 hours?

It's simply done as part of your plan. **No separate quote, no extra contract**. My team builds it, and it shows up on your monthly work summary.

■ Bigger projects, quoted up front

If a project is bigger than a typical month, I quote it first. You either approve extra time at your plan rate or we spread the work across the coming months.

■ Nothing billed without approval

Extra time only happens with your OK by email or text. Plan rates are Advisor \$170, Partner \$165 and Executive \$160 an hour.

■ A monthly work summary

Every month you get a plain-English summary of what we built, fixed and decided, so you can see exactly what your plan delivered.

AI, DONE HONESTLY

Put AI To Work In Your Business

Customer service assistants

AI that answers common questions on your site, by chat or email.

Client intake

Collect, check and organize information from clients automatically.

Quoting

Faster, consistent quotes built from your own rules and pricing.

Document processing

Read, sort and pull data from forms, PDFs and paperwork.

Email & lead follow-up

Draft replies and follow up with leads so nothing slips through.

Finding where AI helps

Where AI fits in your business, and where it doesn't.

Picking AI tools safely

Choose tools that protect client data and are worth the cost.

Staff AI training & policy

Clear rules and hands-on training so your team uses AI well.

My honest take: AI is powerful, but it isn't always the answer. Sometimes well-designed automation code does the job better, cheaper and more reliably. Because my team builds both, you get whichever one actually fits.

GETTING STARTED

Three Simple Steps

Free Strategy Session 1 Free

By phone, video or in person (local businesses, and I'll travel for serious projects). We think it through owner to owner.

Technology Roadmap 2 \$950 one-time · optional

A review of your software, tools and website or store, plus a written 12-month roadmap (including where AI fits), quick wins, help choosing the right tools and software, a security checklist and a walkthrough. Delivered within 10 business days.

✓ Credited to your first month if you join within 30 days

Monthly Plan 3 From \$995/mo

Advisor, Partner or Executive. One flat price for builds, fixes and advice every month, with set response times. 3-month minimum, then month-to-month.

THE MONTHLY PLANS

Pick The Level Of Help You Need

Advisor

A tech advisor on call, plus small fixes and builds each month.

\$995/month

Typical time	About 6 hrs/mo
Extra time	\$170/hr
Response time	1 business day
Emergencies	\$295/hr

STRATEGY & ADVICE

- ✓ 1 strategy meeting with me each month
- ✓ Roadmap reviewed quarterly
- ✓ Help choosing the right tools
- ✓ AI opportunities reviewed, right tools picked

REAL WORK DELIVERED

- ✓ A small build, fix or automation most months
- ✓ Free support for apps my team builds
- ✓ Quarterly security check
- ✓ Monthly summary of what we did

MOST POPULAR

Partner

Your on-call tech team: regular builds and AI tools set up.

\$1,950/month

Typical time	About 12 hrs/mo
Extra time	\$165/hr
Response time	4 business hours
Emergencies	Response included

Everything in Advisor, plus:

STRATEGY & ADVICE

- ✓ 2 strategy meetings with me each month
- ✓ Roadmap updated monthly
- ✓ Working with up to 3 of your existing software providers
- ✓ Quarterly business and AI review

REAL WORK DELIVERED

- ✓ 1 to 2 small builds or automations a month
- ✓ AI tools set up and running
- ✓ Systems connected and synced
- ✓ Monthly security check-in

Executive

Weekly check-ins and the most hands-on help of any plan.

\$3,450/month

Typical time	About 22 hrs/mo
Extra time	\$160/hr
Response time	2 business hours
Emergencies	Response included

Everything in Partner, plus:

STRATEGY & ADVICE

- ✓ Weekly strategy check-in with me
- ✓ Working with all your existing software providers
- ✓ Annual technology plan, budget, hiring help
- ✓ Step-by-step plan for adding AI

REAL WORK DELIVERED

- ✓ Several builds and improvements a month
- ✓ AI policy and staff training
- ✓ Annual security and backup review
- ✓ Quarterly written report for owners

NONE OF THESE FIT?

Let's Build A Custom Plan.

Need more hours, faster replies or a different mix? Tell me what you need and I'll put together a plan around your business, with the same included hosting, email, texts and free app support. Custom plans start with a free Strategy Session, then I send you a flat monthly price.

Same simple terms: 3-month minimum, billed monthly in advance.

SAME ON EVERY PLAN

Included With Every Plan

For the apps and software my team builds for you, these come standard on Advisor, Partner and Executive alike.

Hosting on AWS

Hosting for the apps we build you, on quality AWS servers. If an app is unusually large (very high traffic or heavy storage), we'll talk it through up front.

Email sending

Up to 10,000 emails a month sent from the apps we build, through our email service.

Text messaging

Up to 500 texts a month to US numbers, sent from our shared business number. Each text counts as 1 part (about 160 characters), so longer messages count as more than one. Need more texts, or your own number? Available for an added fee.

Free support for apps we build

Support for every app my team builds you is included and never comes out of your plan time: bug fixes, security updates, backups, keeping it running and answering your questions. Feature additions and changes use your plan time.

WHY A MONTHLY PLAN

Plan vs. As Needed

	Monthly Plan	As Needed
Response times	✓ Set reply times: 2 hours to 1 business day	Scheduled when my team is available
Rate	✓ Plan time works out to about \$157–\$166/hr	Standard rate: \$175/hr
Small jobs	✓ Just get done, no quotes	A quote for each job
Emergencies	✓ Set emergency response times	No emergency guarantee
Looking ahead	✓ Roadmap, security checks and work with your software providers	You only call when something breaks
Hosting, email, SMS, support	✓ Included	Billed separately
Billing	✓ One predictable monthly bill	Billed job by job
Your business	✓ We already know it	We get up to speed each time

SIDE BY SIDE

Compare The Plans

	Advisor \$995/mo	Partner \$1,950/mo	Executive \$3,450/mo

Extra time (with your approval)	\$170/hr	\$165/hr	\$160/hr

PROOF IT WORKS

Several days down to a few minutes

We built an insurance quoting system for a business insurance broker that turned tasks taking several days into a few minutes, using well-designed automation code, with no AI involved.

The work of two full-time positions

A system built by my previous firm took over the work of two full-time positions.

THE FINE PRINT, IN PLAIN ENGLISH

Clear Rules, No Surprises

■ Business hours

Monday to Friday, 9 AM to 5 PM Eastern, excluding major US holidays. Response times count business hours. Non-urgent messages sent after hours get a reply the next business day.

■ What counts as an emergency

Your store can't take orders or payments, a system my team built and supports is down, or a security incident such as a suspected breach. Call or text 561-325-8939, any day.

■ Emergency coverage

Partner and Executive: emergency response is included, and other emergency work counts as plan time. Advisor: \$295/hour, 1-hour minimum. Fixing apps my team built is always free support.

■ Term: 3 months, then month-to-month

3-month minimum, then month-to-month. Cancel with 30 days' written notice. Upgrade at the start of any month, and downgrade after the minimum. Billed monthly in advance.

■ We're not an IT help desk

Email, Wi-Fi, computers, printers and phones stay with your IT provider. I'm happy to work alongside them.

■ My honest-advice promise

When an off-the-shelf tool fits your business better than custom code, I'll say so and help you set it up.

Included in your plan

- ✓ About 6, 12 or 22 hours of hands-on work a month
- ✓ Hosting, email, SMS and free support for apps we build
- ✓ Strategy meetings, roadmap, tool and software choices
- ✓ A monthly summary of what we did

Not included

- ✗ IT help desk: email, Wi-Fi, computers, phones
- ✗ Extra time beyond your plan, unless you approve it
- ✗ Third-party software, hardware and fees
- ✗ Legal or compliance work

Do I need to be technical?

No. I explain everything in plain business terms, weighed against cost and payback.

Roadmap or AI Opportunity Audit?

The \$950 Roadmap covers all of your technology. The \$750 AI Opportunity Audit focuses only on AI.

Can I change or cancel my plan?

Upgrade at the start of any month. After 3 months, downgrade or cancel with 30 days' notice.

What counts toward my plan?

Any hands-on work counts the same, except support for apps my team built, which is free. Plans are sized for a typical month; time isn't banked or carried over, and bigger projects are quoted up front.

What happens to my apps if I leave?

They keep running. Hosting can continue at a regular monthly rate, or my team will happily help you move it wherever you like.

Can I get something different?

Yes. If none of the three plans fit, I'll put together a custom plan around the hours, reply times and work you need, at one flat monthly price.

WHO IT'S FOR

Small businesses of every kind, roughly 2 to 50 people, without a tech lead on staff. That includes law firms, mortgage brokers, insurance agencies, medical offices, eCommerce stores, contractors, service companies and plenty of others.

Let's Think It Through, Owner To Owner.

Start with a free Strategy Session. We'll talk about your business, and I'll tell you honestly whether a plan makes sense.
